Automation

Specially engineered to produce part out of small wire with long straight lengths with great accuracy

Main Features

- > 2D and/or 3D bending
- > From coil
- > For wire and strip
- > From 2 to 4 mm at 600 N/mm² - .08 to .28" at 85 Ksi
- > 1 head machine
- > Bending head moving freely around the material

Control

- > Industrial PC based software
- > Multilingual dialog and programming interface
- > Simulation program
- > Additional I/O
- > Internet connection: remote assistance and chat room
- > Auto-corrective feedback from 3D-measuring devices

Dimensions

- > 4600 x 1700 x 2200 mm
- > 183 x 79 x 68"

Weight

- > 1250 kg
- > 2500 lbs
